The Democratic Platform

[From the New York Tribune, July 8.]

The Republican party, to the extent of its power, has been guilty of the crime of putting that portion of the Southern people who prayed and fought for the Union in our late struggle under the feet of those who cursed it and fought to overwhelm it. That is the gist of the offense for which it is arraigned, defamed, [illegible] and befouled, in the platform yesterday adopted by the Democratic National Convention and herewith presented to our readers. Though [illegible] paint an inch thick, to this complexion you come at last. The slaveholders [illegible] and tried to break up the Union; the Republicans broke their power by destroying slavery, and thus reestablished the Union. All the talk of arbitrary arrests, suspension of habeas corpus, overthrow of trial by jury, etc., etc., amounts to just this: We might have saved slavery and sacrificed the Union; we sacrificed slavery and saved the Union; hence we are hated and pelted with 'railing accusations' by the rebels and rebel sympathizers who ratified and cheered counsel [illegible] by a platform yesterday in Tammany Hall.

Hypocrisy is the tribute vice pays to virtue. A few years ago these gentlemen were denouncing our emancipation and our negro arming as our giant usurpations. A few years before that 'coercion' was our great crime; we had destroyed the Constitution by refusing to let the slave power overthrow it. When we struck back at slavery, that was our unpardonable sin; now they have not a word to say against abolition; they dare not even demonstrate openly against negro suffrage and squarely assert their baseless dogma 'That this is a white man's government;' they are constrained by prudence to rail against the bugbear of "negro supremacy." And their flight from the field whereon they first confronted us is not yet arrested.

This platform ostentatiously beats the air. It denounces military rule when the military commanders are quietly turning over their authority to the Governors and Legislatures chosen by the people and announcing their power at an end. It calls for the withdrawal of the Freedman's Bureau, when Congress has provided for or is providing for the closing of that Bureau in each State so soon as its machinery of loyal self governments shall have been put fairly in motion. The platform seems anxious to atone, by the vehemence wherewith it denounces whatever has passed or is passing away, for its cowardly equivocations and subterfuges with regard to tangible and living issues.

"Shall the Southern blacks, enfranchised by Congress, be disfranchised? Is the colored minority of our people to be recognized as entitled to a voice in the Government which they, like the rest of us, must support and obey? Are the Reconstruction Acts, and the State Governments based upon them, to be treated as nullities in case the Democrats elect their President next fall? Are the whites of the South to be upheld in subverting those Governments and establishing exclusive white rule in their stead?" These are the paramount questions of the hour. Has the Democratic Convention answered them in the affirmative or the negative? Read and judge? The plain intent is to have them understood in opposite senses, according to the bias of the reader. We have no doubt that, if the Democrats triumph, the new State Governments will be subverted and the blacks disfranchised, but many will hold the opposite view, and the Convention meant to satisfy each side and be in position to cheat each other.

On the subject of finance and currency the Convention is more explicit. True, its demand of "one currency for the Government and the people," etc., was meant to be, and will be, understood in two exactly opposite senses—half the Democracy agreeing with us that such a currency is to be rightfully, beneficently secured only by a resumption of specie payment, while the other half will read it as sanctioning the Pendleton scheme of paying the national creditors in greenbacks and embarking on a shoreless ocean of currency inflation and debasement. So far the platform is only a partisan dodge and not a particularly smart one. But look at this:

"Equal taxation of every species of property according to its real value, including Government bonds and other public securities." [Immense cheering.]

Now the Act of Congress (February 25, 1862) which authorized the issue of $150,000,000 of treasury notes and providing for funding or paying the same, expressly says:

"Sec. 2. * * * And all stocks, bonds and other securities of the United States held by individuals, corporations or associations within the United States shall be exempt from taxation by or under State authority."

Of course this was already the law. Chief Justice Marshall having decided, nearly half a century ago, that no loan, bond or other obligation of the Union could be taxed by or under State authority. That decision has never been legally disturbed or questioned. But here, in the provision of law just quoted, is an express stipulation [illegible] compact fortifying what was already a law by a solemn pledge of the national faith. Shall that faith be wantonly broken? The Democratic Convention in effect says, "Yes, we are a nation of scoundrels; we made our own terms and borrowed $2,000,000,000 thereon; now let us repudiate and do our creditors out of a part of their money." Perhaps a majority of our people are scoundrels and so will approve the swindle; but if so they will prove themselves fools as well, for every dollar we thus steal will cost us five in the negotiation of future loans wherewith to replace those already existing. We ought to be able to borrow on long bonds at 4 per cent. the wherewithal to redeem and cancel our five twenties as fast as the option matures; we cannot and shall not because of these villainous menaces of repudiation.

Just look at the kindred proposition that all our public debt should be paid in "lawful money" (greenbacks) "where the obligations of the Government do not expressly state upon their face or the law under which they were issued does not provide, that they shall be paid in coin."

On which, we observe:

I. There are to-day outstanding several loans or parts of loans, contracted before there was any "lawful money of the United States" excepting gold and silver coin. We have looked the [illegible] several of these and find nothing said as to the medium of payment. Witness this provision of the Act of February 8, 1861:

"Sec. 4. And be it further enacted, that the faith of the United States is hereby pledged for the due payment of the interest and the redemption of the principal of said stock."

This pledge of public faith to men who gave hard coin for every dollar of their stock the Democratic Convention says, will be made good by tendering them the face of their bonds in greenbacks, whether these be worth 25, 50 or 75 cents in coin per dollar! If this is not naked [illegible], where is the fig leaf? We don't see it.

II. When the great treasury note and funding loan of February 25, 1862, was authorized, providing for the issue of $150,000,000 in treasury notes and $500,000,000 in six per cent. bonds (the five twenties) it was thereby expressly provided as follows:

"Sec. 5. And be it further enacted, That all duties on imported goods shall be paid in coin, or in notes payable on demand therefor authorized to be issued and by law receivable in payment of public dues; and the coin so paid shall be set apart as a special fund and shall be applied as follows: First—To the payment in coin of the interest on the bonds and notes of the United States. Second—To the purchase or payment of one per centum of the entire debt of the United States to be made within each fiscal year after the first day of July, 1862, which is to be set apart as a sinking fund, and the interest of which shall be in like manner applied to the purchase and payment of the public debt as the Secretary of the Treasury shall from time to time direct. Third. The residue thereof to be paid into the treasury of the United States."

Here you see the duties on imports are all [illegible] in and that [illegible] first to the payment of the interest on the bonds and notes of the United States, and [illegible] to the purchase or payment annually of one per cent. of the principal of the entire debt of the United States.

Are these solemn pledges fulfilled? Are they to be fulfilled? Read the Democratic platform in connection with the above provisions of law and judge of the honesty or villainy of its framers.

III. The Legal Tender Act was as wholly a war measure. It was impelled by the direst necessity. It was in effect a gigantic forced loan. Our Government was fighting desperately for the nation's existence, and said in effect to those whom it was conscripting into its armies and constraining to minister to its necessities on all sides: Take our mere promises as money—there is no help for it just now—and we will make them good as soon as we can. Each successive Secretary of the Treasury being inquired of as to the medium of payment of the bonds which every one was urged to take, unhesitatingly responded: "The principal as well as the interest, will certainly be paid at maturity in coin." Nobody doubted; nobody dreamed of contesting this. Every treasury agent advertised far and wide that the five-twenties were payable in coin. Every journal that tried to help the Government in its distress reiterated the assurance. Now the Democratic Convention says they are "payable in lawful money of the United States"—that is in greenbacks to-day [illegible] per cent. below coin and which would sink [illegible] much lower if they were issued to wipe out the funded debt. Should this fraud ever be consummated we rejoice in the knowledge that our party will not be in power.

The Ku Klux

MURDERS, ROBBERIES AND OUTRAGES BY THE KLAN—SCHOOL TEACHING AND BIBLE READING PROHIBITED.

[From the Nashville Press and Times of the 9th.]

Accounts reach us from Giles, Marshall, Hamilton and Bedford counties, of fresh outrages perpetrated by the Ku Klux on colored people. The horrors practiced by these wretches grow more intensely black every day. They roam through the country and perpetrate their crimes with apparent impunity and a satanic determination and disregard of consequences perfectly appalling.

From Giles county a dozen or more colored men arrived yesterday morning, by way of the Alabama railway. Their narrative of suffering is heartrending. They all have families depending on them, are farmers who cultivated pieces of land and were just housing their crops. They had from thirty to fifty acres each under cultivation, besides other little property in the way of stock. They are men rugged and knotted up with ceaseless toil in an up hill struggle, not only to make a little for future contingencies, but even to make bread whereon to live. Honest laborers, out in the fields from early dawn to dewy eve, earning, as they simply express it, "meat and clothes for their little ones." They all live in the neighborhood of Cornersville, about twelve miles from Pulaski, in Giles county.

The young scoundrels of the Klan having grown bold of late by reason of the impunity with which many of their order have been allowed to roam over the country, whipping and robbing, determined to be [illegible] of every other place in their persecuting spirit and hostile demonstrations on colored men. A short time ago they assassinated Mink Burks, a colored man living on Marshall's plantation, three miles from Cornersville. The members of the Klan went round taking arms by force from every colored person who had one, and among the thieving crowd were three who were recognized by one Scott and several other colored men, who had the thieves prosecuted at the County Court of Giles County. The Ku-Klux were discharged. There are three of them—Bob. Wolver, M. Gordon and Bob. Gordon, three of the colored men were subsequently threatened with death—the day was named for the deed and the place indicated, and all of a dozen others were to be severely whipped. Their names are Crittenden, Stanhope and R[illegible] and on yesterday the deed was to be done. They escaped with their lives, and are now in town.

A Mr. T. Clark, a very mild and [illegible] man, who used to teach school down there, was compelled to quit by the [illegible] members of the Klan. He is even afraid to write about their doings. George Rose, a colored [illegible] had a prosperous school of over forty children, was also compelled to give up his school, and is now in town. The Klan is represented as being [illegible] reckless, and the house of one widow Gordon, twelve miles from Pulaski, and five from Cornersville is said to be the headquarters. They meet there almost nightly, and hold deliberations and plan their infernal work of blood. The wives and families of these colored fugitives are now in the woods living in the best manner they can. They too were driven out of their homes. Giles county needs purging.

ASSASSINATION OF THE REGISTRATION COMMISSIONER OF OVERTON COUNTY.

Editor Press and Times: On the first day of July five armed men appeared before the dwelling house of James Francis, Commissioner of Registration for Overton county and pointed their guns in at the windows and demanded his surrender. On being informed by Mrs. Francis that her husband was not at the house, they proceeded to search the premises, took what arms they could find and such other articles as they chose to appropriate.

By this time some confederates, who had concealed themselves on the farm, called to them to "come on, they had him." At this the ruffians left taking their booty. A short time after they were gone Mrs. F. heard two guns fire, and supposing her husband had been shot, she and two neighboring women followed in the direction of the firing. Directly they heard other guns, and in a few minutes twenty or more shots were fired. Continuing to follow the trail she came upon a waste house where she found her husband lying dead. His hands were tied, and he was literally riddled with bullet holes.

MARSHALL COUNTY.

A letter from Marshall, county of the 1st gives a fearful account of the resurrected rebels in that district:

MARSHALL COUNTY, July 1.

We have gathered some further particulars about the cruel intentions of these infamous wretches, Ku Kluxs or resurrected rebels as they call themselves. On the night of the 15th of June those infamous wretches went to the house of Mr. Lewis Brinkally and abused him, and we learn their calculations were to serve in a like manner the person of Berryman, Scales, Mr. Willis, and also R. Royster for the sole cause of boarding a teacher at his house. They expressed an intention to hang Mr. Jenkins for the habit of reading the Bible to those of his own race, thereby making them as wise as the white men as they allege. Mr. Jenkins is the minister in this vicinity and is worthy of protection. He is allowed to preach but once a month. Five hard working honest citizens were dragged out of their beds in the night and maltreated in the most shocking manner. While the whipping was being done the cause given for it was that he voted for Brownlow, and if he did not vote the Conservative ticket next time he would be killed. John Street, one of the officers of Chapel Hill, openly declared that there never has been any peace and that they only retired awhile to rest and gather force for another rebellion. The [illegible] another squire has been engaged in those night law breaking and citizen terrifying expeditions. He had his right arm wounded. Three of the Klan have been wounded, one mortally, but they are busily recruiting, and have an immense amount of guns and revolvers, and they swear they will fight again. There is a regular war here between the whites and blacks.

Insurance Companies are said to have been first conceived by the Roman Emperor, Claudius Cæsar, A. D. 43. Insurance was in Italy in 1194, and in England in 1560. The Campaign as Opened by the Democracy

A political item in an Eastern newspaper states that Gen Beauregard Basil Duke and a number of the men who accompanied the rebel Morgan in his famous raid north of the Ohio had arrived at Cincinnati in company with Jesse D Bright on their return from the New York Convention. It is presumed that these men were sent west to show themselves for the double purpose of rousing Democratic enthusiasm, and assuring the Western copperheads that in losing Pendleton they had not lost all, that they still had the active sympathy and co operation of the most reliable [illegible] of Democrats—the rebel leaders and the [illegible] military leaders. It would have been somewhat interesting to witness the social and political amenities which were practiced during the triumphal tour of Gen Beauregard and Morgan's men among our friends of Ohio and Indiana. The rioters who rode so [illegible] on the abolition side of the Ohio of course demanded and received proper explanations why they were not let alone on that occasion, and then everything was lovely and pleasant among the brethren of one faith, it being expressly understood that the friends of the lost cause, on the north side were in no way responsible for the hindrances put in the way of transferring the horrors of war to the north side of the Ohio river. The Democratic Knight of the Golden Circle clasped hands with the Democratic Kuk Klux Klansman and the two pledged their mutual efforts for the immediate restoration of the country to peace and unity on the basis of another revolution. At this point, hurrahs for Blair. There could be no disagreement on the question of putting down the nigger. The chief of the Kuk-Klux s could not understand the necessity of decorating the lamp posts of the country with dead "free niggers" nor the propriety of illuminating the nineteenth century with the glare reflected from burning, "free nigger" school-houses and orphan asylums, in any degree better than did his northern Democratic brother, as early as 1863. Of course the representatives of the two sections struck willing hands on this question. At this point, hurrahs for Seymour and the New York rioters. It may fairly be presumed that the Democratic tourists and their Democratic entertainers, "reposing their trust in the intelligence of the people" jubilated to some extent over the prospects of an early resurrection of the "lost cause," the certainty that "secession still lives" and that "what the confederate soldiers fought for would be won by the election of Seymour and Blair." At this point, hurrahs for Henry A. Wise and Gov. Vance, as having touched the key note of the campaign. We must admit that there was a fitness of things in sending Gen Beauregard, fresh from the Convention, to show himself to the Democracy of the West. As he was the first to sound the alarum of war in 1861, when the Southern heart had been sufficiently fired to undertake the job of correcting the mistakes into which the framers of the government—innocent and unsophisticated people—had fallen, so he should be the first to proclaim that the great American Democratic party has entered the field again with a platform and candidates pledged to the Southern chivalry and to another revolution. As it was he who was the herald and for a day the representative of the great Democratic idea of secession, it was appropriate that he should also be the herald from the Democratic Convention which has declared that nothing has been settled by the rebellion and that the advocates and leaders of sedition are to be set up in business again.

Another political item states that Wade Hampton, Forrest, Barksdale Preston Fairfax, Forsyth, Yerger, and other rebel democrats are to take the stump against Grant in the Northern States. This, too, has a fitness of things in it. Gen Grant stumped pretty roughly against some of these Democratic orators, when they were in the field in 1862-3-4 and 5 and it is natural enough that they are yet unable to overcome their resentments for the many injuries he inflicted upon them. It is not in human nature and reason to expect of them to omit an opportunity of showing their teeth to the man who took Lee's sword and gave the last stab to the Confederacy. But as they had but indifferent success in their former tilts against Grant it is hardly worth while to worry very seriously about the damage they may do him now. We must however, admit that in these several preparations, there is something sublime—the sublimity of impudence, that these men who have been saved from a halter as punishment for treason, only by the magnanimous clemency of the Northern people should come up among us to teach us how to restore the Union.

The sixth resolution of the Democratic platform, demands economy in the administration of the government. Economy is a good thing in its way, and we are glad to see that both the party platforms demand and promise its practice. As a good practical lesson in economy we ask the Democrats to study Gen Grant's administration of army affairs both as General and as Secretary of War, *ad interim*. While at the head of the War Department upwards of $12,000,000 of army expenses were lopped off. The present movement for still further reduction, the army is understood to have been suggested by him. En passant this does not look much like a[illegible] Gen Grant has any notion of becoming a military dictator as is absolutely charged by dishonest and uncandid Democrats. The savings effected by Gen Grant's military administration are all in favor of the government and not a turning of the currents of expenditure from one direction to feed expenditures in another. Should our Democratic fellow citizens who demand economy find in Gen Grant's way of practicing it what they seek we suggest a further search into the record of their candidate, Seymour as Governor of New York. We do not fear the result of a challenge comparison of the records of the two men. If Democrats *honestly* demand economy, we suggest that the best thing they can do is to vote for Gen Grant who practices what his antagonist merely professes to want.

We have often been asked lately when the State Fair will begin. The opening day is September 28th and the fair will continue six days.

EDITORIAL CORRESPONDENCE

LETTERS ABOUT EUGENE

EUGENE CITY July 31 1868

Proceeding up the valley as the last [illegible] from the [illegible] of the State [illegible] public interest in railroads [illegible] [illegible] In truth the country is languishing for want of the stimulus which a railroad will give it. Here is the most beautiful valley in the [illegible] with [illegible] number of [illegible] water power [illegible] [illegible] and to the [illegible] of the multitude. But these truculent demonstrations have not been carried so far as to seriously threaten the safety of any of our fellow citizens and the champions of each side still live to contend for their respective enterprises.

It is not the province of an outsider to meddle with other people's business nevertheless the remark is hazarded here that the east side road is making a mistake in proposing to cross the river at Corvallis. This deflation leaves the large and valuable tract of country extending from opposite Corvallis to the head of the valley a tract fifteen miles in width by fifty in length,—without railroad facilities. It increases the length of the route, and adds to the cost of construction the bridges which it will be necessary to throw across the Wallamet. The west side road—and a road is as certain to be built on the west as on the opposite side—will serve all the country on the west side of the river. If the Humboldt branch is built, of which it is understood the east side men are very sanguine, they will discover in time that their true policy is not to cross the Wallamet at all but to take the nearest and the natural route on the east side of the valley and up the Middle Fork.

THE "STATE TEACHER'S INSTITUTE"

has been in session here for several days. The arts and mysteries of imparting instruction to the "common mind" have been elaborately discussed. An official account of the proceedings will no doubt be published. Some good discourses on subjects relating to education have been delivered. To be impartial, the remark must be added that some time was consumed by the delivery of twaddling declamations and a show of cheap learning. Good food is a good thing and highly important for the development of both the physical and mental powers, but when a gentleman argued that there was a certain element of food most favorable to perfect intellectual development, and that that element was *bran* one could not help thinking that here was a gentleman who had just become acquainted with the profound philosophy taught in the publications of Fowler & Wells, and that he had hastened to give the world the benefit of his valuable discovery.

THE HISTORY OF A CHURCH BELL

Eugene is a town of churches, almost every denomination being represented here. It is related that one of the church edifices of the place is adorned with a bell which was procured many years ago by the sacrificing efforts of a minister who was instrumental in organizing the society. A bell was needed and he knew no way of getting one. He had a colored woman in his family, and after giving the matter about the bell his long and prayerful consideration, he concluded to take the woman to California dispose of her and apply the proceeds in a truly Christian way to meet this demand. The resolution was finally fulfilled, and to this day the flock is called together, though it meets but seldom now by a bell which was obtained through this laudable zeal of an earnest brother in the gospel. Such is the history which several citizens of Eugene give of this bell.

SPRINGFIELD

three miles west of this place is flourishing and will be a valuable point on account of its water power. The water from the Middle Fork of Wallamet is conducted through a race about four miles long, gaining in this distance a fall of thirty feet. The whole river could be used if desired. At present flouring, saw and planing mills are driven by this power. Next year a woolen factory will be added arrangements having already been made at the East for the machinery. No part of the Wallamet valley can surpass in beauty or fertility that in the vicinity of Springfield and the people there say they are only waiting for a railroad to make their location all that they desire it.

SURVEYS OF THE STATE

Maps and diagrams in the Surveyor General's Office show that much progress is making in the extension of surveys throughout the State. Meridians and parallels have been run in Eastern Oregon so that the surveys there may now be pushed forward in a rapid and systematic manner. At this time surveying parties are at work in the valley of the upper Deschutes on Sprague's river and about Goose Lake. Extensive surveys will be made this summer in Wasco, Umatilla, Union and Baker counties and considerable work will be done in Douglas, Benton, Tillamook, Clackamas and Coos. At Yaquina Bay and on McKenzie's Fork are lands which will also be surveyed. No surveys of any description have yet been made in Grant county, but that county will receive attention at an early day. The Deschutes and Grand Ronde meridians have been run from north to south within a few miles of the California line and will be closed up when the boundary line between Oregon and California is established. A company under orders from Washington is now engaged in running this line. There are many thousand of acres of excellent timber lands along the skirts of the Wallamet valley and adjacent to the coast which ought to be surveyed, but surveyors will not take these jobs at the contract price. It will cost more to survey these lands than those which lie open to the view, yet the work ought to be done because settlements are continually penetrating these unsurveyed localities and the Government is losing much valuable timber which is being rapidly cut away at almost [illegible] Our [illegible] that [illegible] timber tracts and they will eventually be [illegible]

During the year 1867 [illegible] [illegible] this money may not all be expended this year.

POLITICAL ASPECTS

There is political [illegible] Grant and Colfax may not seem to be a very hopeful one nevertheless it is well worth making.

FROM IDAHO

WINNEMUCCA CAPTURED

The *Avalanche* of the 25th ult says

A gentleman connected with Maj Walker's scouting party, writing from near Steen's Mountain July 18th has furnished us with the following glad tidings. Our scouting party, consisting of Maj Walker Lieut Lewis and thirty men 23d Infantry and ten Indian scouts with Reed have captured the greater part of Winnemucca's band consisting of some seventy or eighty savages, and will take them to Camp Harney in a few days and turn them over with the rest now there. Owing to the strong position of the Indians in the mountains it was not thought expedient to make an attack. The scouts were sent to the camp with a prisoner recently taken by Reed, to have a talk. They soon returned with seven three of whom were chiefs, and after a long talk they agreed to go with their whole band to Camp Harney." The writer expresses the belief that Winnemucca's band will no longer be the terror of unprotected travelers. Space forbids further notice this week.

LABORERS WANTED

The Boise *Democrat* of the 25th says. Quite a number of men could find employment at good wages in the harvest fields of our valleys. We hear every day of our farmers wanting help. Send us some good men who are willing to work.

We clip the following from the *World* of the 25th

MATTERS IN NORTHERN IDAHO

W O Langford Esq, a prominent lawyer of Walla, Walla W T, arrived in town yesterday, over the trail from Warren's Florence, Slate Creek and other camps in Northern Idaho, where he has been professionally engaged. He came in company with Messrs Tickner, Cunningham Jones and another from Northern Idaho, and was five days on the journey. They met upwards of fifty men, on the way to the newly discovered diggings in Idaho county, a few miles from the Lewiston trail, and about one hundred miles from here. The trail is in good condition, water, grass and wood plenty, and the streams all easy forded. The water in the Payette is unusually warm, and all along the valley gnats and huge horse flies terribly annoy travelers and horses.

THE POWELL & CO BURGLARY

About midnight of Tuesday, the brick store house of Powell & Co on Walla Walla street, in this city, was entered by a hole made in the brick wall, their safe taken out, carried down into Mores creek, two or three hundred yards away, and there it was broken into by a pick and sledge hammer, and its contents abstracted, consisting of gold coin bars, dust, and greenbacks, to the value we are informed, of between $12,000 and $15,000. The notes, papers and books were not taken. The safe was found in the creek bottom, Wednesday morning. It weighs about 900 pounds. Tracks of bare feet were discovered at the store house and traced to where the safe was broken into. We learn that a possible clue has been obtained of the perpetrators, by which it appears Chinamen were involved in the burglary and robbery. It was certainly the most audacious deed ever committed in this city and we hope the rascals will be brought to justice, and every dollar of the money recovered.

CANYON CITY NEWS

[From the Mountaineer July 31]

By the arrival of Lockwood & Edgar's Stage from Canyon City last evening, we received a letter from our correspondent, from which we take the following.

There is a rumor that new mines have been discovered on the Malheur River, and quite a large number of men have left for that locality.

Several men that went out with old Meek to look for the "Emigrant Mines" have returned. They say that Meek knew nothing about the country after they got to Stein's Mountain. The party broke up, some of them going to the head of Crooked River, the others—excepting those that returned to Canyon City—to Owyhee.

On the 26th instant Wm Raykelly accidentally shot himself with a double barrelled shot gun while at Soda Springs, killing him instantly. He was well and favorably known at Canyon City, and leaves many friends to mourn his sad fate.

The weather has been extremely warm, the thermometer ranging from 96° to 100° in the shade. Trade is rather dull but as this is the dull season no one complains.

The election contest is still in progress. The Democrats do not appear to relish the dish set before them by the New York Convention.

Mr Wheeler, the gentlemanly driver for the stage company informs us that the roads are in splendid condition, and that as far as he drives, the people along the road are all in good healthy state and most of them are getting rich.

A letter from Canyon City July 18th, has the following.

"It is expected that the contract lately awarded Mr Lockwood for a daily mail from Salt Lake City to the Dalles was by the way of this place but it appears that there was a mistake. It is a fact that cannot be disputed that this is the shortest [illegible] [illegible] South Fork. This [illegible] is justly due this section.

"Major [illegible] has arrived here during the week and [illegible] intend to locate permanently in this city.

Mr [illegible] informs us that a band of some fifteen or twenty Indians made their appearance on [illegible] Creek the other evening. They were [illegible] we may expect to hear of some depredations soon.

The *Mountaineer* of the 31st says: "Business of all kinds for the past week has been extremely dull. There has been very little travel on the river. The stage to Canyon City however [illegible] every trip. That section of country is rapidly filling up with an industrious class of people. Freights to Canyon City [illegible] cents.

The New York police made 1,931 arrests during the days on which the Democratic Convention was held in that city, which is about 1,900 more than were made in Chicago during the session of the Republican Convention.

MONTGOMERY July 30. Senate consumed the entire day discussing the bill to punish Ku Klux. The House considered the common carrier bill which punishes railroad and steamboat officers who make distinctions on account of color.

Facts from Agricultural Report

CHICAGO July 31.—The Agricultural Department [illegible] report on the condition of crops in July. The most remarkable fact in connection with the corn crop is the great increase on an average in the South. The difference since last year being over two and a half million acres. The increase throughout the United States amounts to thirty six million acres. The condition of wheat is about average except in Vermont, Connecticut and the Southern States.

Cotton shows an average reduction of ten per cent and crops are in splendid condition with a prospect of the finest yield for years.

Rice, oats and barley promise abundant crops. Potatoes are unusually good. Fruit is variable. Apples and peaches are less promising than usual.

WASHINGTON, July 31st.—Binckley, late Assistant Attorney General, is appointed Solicitor of the Internal Revenue Bureau.

The Russian Minister has received a draft for payment for Alaska.

Great Fire at Oil City

OIL CITY, July [illegible].—One of the most disastrous fires that ever visited the oil regions occurred here at one o'clock this morning, destroying, in all, two hundred buildings and rendering homeless as many families. The oil interests are suffering but very little.

Ratification of the Treaty with Prussia

WASHINGTON, July 31.—The President has officially proclaimed ratification by both parties of the treaty concerning citizenship with Prussia.

Blair, the Revolutionist, Makes a Speech.

LEAVENWORTH July 31.—General F P Blair addressed an immense meeting here to night. His speech was principally devoted to radicals, regarding reconstruction records and to General Grant. He charged that Grant had changed his views of reconstruction, having at the close of the war urged the immediate admission of Southern Congressmen. He said the secret of the adherence of Grant Sheridan and other army officers to the radical party is, that the tendency of the party being to overthrow the prerogative of the Executive and Supreme Court, looks towards military despotism, which would give prominence to officers of the army. He denied that the sentiments expressed in his New York letter were revolutionary, and said the radical party made Copperheadism respectable.

WASHINGTON July 31.—The annual statement of the Post Office Department will show an alarming deficit, amounting to $5,000,000 for the past year.

Turbulent disposition in New Brunswick

ST JOHNS, N B August 1.—A strong anti Union meeting was held at Yarmouth yesterday. Resolutions were passed expressing indignation at the refusal of the Imperial Parliament to redress the wrongs of Nova Scotia and threatening to take high handed measures to secure the deliverance of the country from its present position.

Mortality in New York—Mason Strike.

NEW YORK August 1.—The alarming increase of mortality in this city is deriving special attention. To the sanitary condition of the metropolis much of the increase of deaths is directly traceable to defective sewerage and a deficient supply of water for family purposes.

The master masons had a meeting yesterday and appeared more than ever determined not to yield to the demand of the strikers. It is stated that over forty bosses are employing ten hour men and only eight or ten working eight-hour men.

Commissioner of Internal Revenue.

CHICAGO, August 1.—A *Republican* special says the President has tendered the office of Commissioner of Internal Revenue to ex-Governor Cox of Ohio. If Cox accepts Rollins will immediately resign.

Horse Thieves Hung

MEMPHIS August 1.—Three horse thieves who were being brought to this city under guard were taken by a mob of forty masked men last night and hung. The mob surrounded the party and overpowered them.

[illegible] July 30. [illegible] says dispatches are received from Marquis Caxias announcing the capture of the fortress of Humaita. No particulars are given, and the terms of surrender are not stated.

The dispute between Caxias and American Minister Washburne is unsettled. The cause is said to be the refusal of Caxias to permit the American steamer Wasp with Washburne aboard to proceed up the Parana river. Mr Webb the American Ambassador at Rio [illegible] remonstrated with the Brazilian Government against this interference with the movements of Minister Washburne and will demand his passport if the steamer is again detained.

The Campaign as Opened by the Democracy

A political item in an Eastern newspaper states that Gen Beauregard, Basil Duke and a number of the men who accompanied the rebel Morgan in his famous raid through Ohio had arrived at Cincinnati in company with Jesse D Bright on their return from the New York Convention. It is presumed that these men were sent west to show themselves for the double purpose of rousing Democratic enthusiasm and assuring the Western copperheads that in losing Pendleton they have not lost all that they still had the active sympathy and co operation of the [illegible] of Democrats [illegible] and [illegible] military leaders. It would have been somewhat interesting to witness the [illegible] political amenities which were practiced during the triumphal tour of Gen Beauregard and Morgan's men among our friends of Ohio and Indiana. The troopers who so daringly on the abolition side of the Ohio of course demanded and received proper explanations why they were not let alone on that occasion and then everything was lovely and pleasant among the brethren of one faith it being expressly understood that the friends of the lost cause, on the north side were in no way responsible for the hindrances put in the way of transferring the horrors of war to the north side of the Ohio river. The Democratic Knight of the Golden Circle clasped hands with the Democratic Kuk Klux Klan man and the two pledged their mutual efforts for the immediate restoration of the country to peace and amity on the basis of another revolution. At this point hurrahs for Blair. There could be no disagreement on the question of putting down the nigger. The chief of the Kuk-Klux's could not understand the necessity of decorating the lamp posts of the country with dead free niggers nor the propriety of illuminating the nineteenth century with the glare reflected from burning, "free nigger school houses and orphan asylums, in any degree better than did his northern Democratic brother, as early as 1863. Of course the representatives of the two sections struck willing hands on this question. At this point, hurrahs for Seymour and the New York rioters. It may fairly be presumed that the Democratic tourists and their Democratic entertainers, reposing their trust in the intelligence of the people jubilated to some extent over the prospects of an early resurrection of the "lost cause," the certainty that "secession still lives and that "what the confederate soldiers fought for would be won by the election of Seymour and Blair." At this point, hurrahs for Henry A. Wise and Gov. Vance, as having touched the key note of the campaign. We must admit that there was a fitness of things in sending Gen Beauregard, fresh from the Convention, to show himself to the Democracy of the West. As he was the first to sound the alarum of war in 1861, when the Southern heart had been sufficiently fired to undertake the job of correcting the mistakes into which the framers of the government—innocent and unsophisticated people—had fallen, so he should be the first to proclaim that the great American Democratic party has entered the field again with a platform and candidates pledged to the Southern chivalry and to another revolution. As it was he who was the herald and for a day the representative of the great Democratic idea of secession, it was appropriate that he should also be the herald from the Democratic Convention which has declared that nothing has been settled by the rebellion and that the advocates and leaders of sedition are to be set up in business again.

Another political item states that Wade Hampton, Forrest, Barksdale, Preston Fairfax, Forsyth, Yerger, and other rebel democrats are to take the stump against Grant in the Northern States. This too, has a fitness of things in it. Gen Grant stumped pretty roughly against some of these Democratic orators, when they were in the field in 1862-3-4 and 5 and it is natural enough that they are yet unable to overcome their resentments for the many injuries he inflicted upon them. It is not in human nature and reason to expect of them to omit an opportunity of showing their teeth to the man who took Lee's sword and gave the last stab to the Confederacy. But as they had but indifferent success in their former tilts against Grant it is hardly worth while to worry very seriously about the damage they may do him now. We must however, admit that in these several preparations, there is something sublime—the sublimity of impudence that these men who have been saved from a halter as punishment for treason, only by the magnanimous clemency of the Northern people should come up among us to teach us how to restore the Union.

The sixth resolution of the Democratic platform, demands economy in the administration of the government. Economy is a good thing in its way, and we are glad to see that both the party platforms demand and promise its practice. As a good practical lesson upon economy we ask the Democrats to study Gen Grant's administration of army affairs both as General and as Secretary of War, *ad interim*. While at the head of the War Department upwards of $12 000 000 of army expenses were lopped off. The present movement for still further reducing the army is understood to have been suggested by him. En passant this [illegible] Gen Grant has any [illegible] of becoming a military dictator as [illegible] dishonest and [illegible] Democrats. The savings effected by Gen Grant's military administration are all in favor of the government and not a turning of the currents of expenditure from one direction to feed expenditures in another. Should our Democratic fellow citizens who demand economy find in Gen Grant's way of practicing it what they seek we suggest a further search into the record of their candidate Seymour as Governor of New York. We do not fear the result of a challenge comparison of the records of the two men. If Democrats honestly demand economy, we suggest that the best thing they can do is to vote for Gen Grant who practices what his antagonist merely professes to want.

We have often been asked lately when the State Fair will begin. The opening day is September 28th and the fair will continue six days.

EDITORIAL CORRESPONDENCE

[illegible]

EUGENE CITY July [illegible] 1868

[illegible] increases [illegible] the [illegible] State [illegible] [illegible] travel and [illegible] the interest which has taken in these matters by the people [illegible]. In truth the country is [illegible] forward of the stimulus which a railroad will give it. [illegible] with [illegible] [illegible] market for its productions.

[illegible] appears to be [illegible] and better than where it had its origin. [illegible] the [illegible] and the champions of each side still live to contend for their respective enterprises.

It is not the province of an outsider to meddle with other people's business nevertheless the remark is hazarded here that the east side road is making a mistake in proposing to cross the river at Corvallis. This deflation leaves the large and valuable tract of country extending from opposite Corvallis to the head of the valley a tract fifteen miles in width by fifty in length —without railroad facilities. It increases the length of the route and adds to the cost of construction the bridges which it will be necessary to throw across the Wallamet. The west side road—and a road is as certain to be built on the west as on the opposite side —will serve all the country on the west side of the river. If the Humboldt branch is built of which it is understood the east side men are very sanguine, they will discover in time that their true policy is not to cross the Wallamet at all but to take the nearest and the natural route on the east side of the valley and up the Middle Fork.

THE "STATE TEACHER'S INSTITUTE"

has been session here for several days. The arts any mysteries of imparting instruction to the "common mind" have been elaborately discussed. An official account of the proceedings will no doubt be published. Some good discourses on subjects relating to education have been delivered. To be impartial the remark must be added that some time was consumed by the delivery of twaddling declamations and a show of cheap learning. Good food is a good thing, and highly important for the development of both the physical and mental powers, but when a gentleman argued that there was a certain element of food most favorable to perfect intellectual development and that that element was *[illegible]* one could not help thinking that here was a gentleman who had just become acquainted with the profound philosophy taught in the publications of Fowler & Wells, and that he had hastened to give the world the benefit of his valuable discovery.

THE HISTORY OF A CHURCH BELL

Eugene is a town of churches, almost every denomination being represented here. It is related that one of the church edifices of the place is adorned with a bell which was procured many years ago by the sacrificing efforts of a minister who was instrumental in organizing the society. A bell was needed and he knew no way of getting one. He had a colored woman in his family and after giving the matter about the bell his long and prayerful consideration, he concluded to take the woman to California dispose of her and apply the proceeds in a truly Christian way to meet this demand. The resolution was finally fulfilled and to this day the flock is called together though it meets but seldom now by a bell which was obtained through this laudable zeal of an earnest brother in the gospel. Such is the history which several citizens of Eugene give of this bell.

SPRINGFIELD

three miles west of this place is flourishing, and will be a valuable point on account of its water power. The water from the Middle Fork of Wallamet is conducted through a race about four miles long gaining in this distance a fall of thirty feet. The whole river could be used if desired. At present flouring saw and planing mills are driven by this power. Next year a woolen factory will be added, arrangements having already been made at the East for the machinery. No part of the Wallamet valley can surpass in beauty or fertility that in the vicinity of Springfield and the people there say they are only waiting for a railroad to make their location all that they desire it.

SURVEYS OF THE STATE

Maps and diagrams in the Surveyor General's Office show that much progress is making in the extension of surveys throughout the State. Meridians and parallels have been [illegible] in Eastern Oregon so that the surveys there may now be pushed forward in a rapid and systematic manner. At this time surveying parties are at work in the valley of the upper Deschutes [illegible] Goose Lake [illegible] the summer in Wasco, Umatilla, Union and Baker counties [illegible] in Douglas, Benton, Jackson [illegible] and Coos. [illegible] surveyed [illegible] have yet been made in Grant county [illegible] The Deschutes and Grand Ronde [illegible] a few miles of the California [illegible] Oregon and California [illegible] engaged in running this line. There are many thousands of acres of excellent timber lands along the skirts of the Wallamet valley and adjacent to the [illegible] which ought to be surveyed, but surveyors will not take these jobs at the contract price. It will cost more to survey these lands than those which lie open to the view, yet the work ought to be done because settlements are continually penetrating these unsurveyed localities and the Government is losing much valuable timber which is being rapidly cut away at almost every [illegible] these lands than for [illegible] smaller tracts and they will eventually be brought into profitable cultivation.

During the year 1867 [illegible] land was surveyed [illegible] State [illegible]

POLITICAL ASPECTS

[illegible] the State [illegible] Republicans have [illegible] candidates in [illegible] the State [illegible] to Grant and Colfax may not seem to be a very hopeful one nevertheless it is well worth making.

FROM IDAHO

WINNEMUCCA CAPTURED

The *Avalanche* of the 25th ult says

A gentleman connected with Maj Walker's scouting party writing from near Steen's Mountain July 18th, has furnished us with the following glad tidings. Our scouting party consisting of Maj Walker Lieut Lew's and thirty men [illegible] Infantry and ten Indian scouts with Reed have captured the greater part of Winnemucca's band, consisting of some seventy or eighty savages and will take them to Camp Harney in a few days and turn them over with the rest now there. Owing to the strong position of the Indians in the mountains it was not thought expedient to make an attack. The scouts were sent to the camp with a prisoner recently taken by Reed to have a talk. They soon returned with seven three of whom were chiefs and after a long talk they agreed to go with their whole band to Camp Harney. The writer expresses the belief that Winnemucca's band will no longer be the terror of unprotected travelers. Space forbids further notice this week.

LABORERS WANTED

The Boise *Democrat* of the 25th says Quite a number of men could find employment at good wages in the harvest fields of our valleys. We hear every day of our farmers wanting help. Send us some good men who are willing to work.

We clip the following from the *World* of the 25th

MATTERS IN NORTHERN IDAHO

W G Langford, Esq a prominent lawyer of Walla Walla W T arrived in town yesterday, over the trail from Warren's Florence, Slate Creek, and other camps in Northern Idaho, where he has been professionally engaged. He came in company with Messrs Tucker, Cunningham Jones and another from Northern Idaho, and was five days on the journey. They met upwards of fifty men, on the way to the newly discovered diggings in Idaho county a few miles from the Lewiston trail, and about one hundred miles from here. The trail is in good condition, water grass and wood plenty, and the streams all easy forded. The water in the Payette is unusually warm and all along the valley gnats and huge horse flies terribly annoy travelers and horses.

THE POWELL & CO BURGLARY

About midnight of Tuesday, the brick store house of Powell & Co on Wallula street, in this city, was entered by a hole made in the brick wall their safe taken out carried down into More's creek, two or three hundred yards away and there it was broken into by a pick and sledge hammer and its contents abstracted consisting of gold coin bars dust, and greenbacks to the value we are informed, of between $12 000 and $14 000. The notes papers and books were not taken. The safe was found in the creek bottom, Wednesday morning. It weighs about 900 pounds. Tracks of bare feet were discovered at the store house and traced to where the safe was broken into. We learn that a possible clue has been obtained of the perpetrators by which it appears Chinamen were involved in the burglary and robbery. It was certainly the most audacious deed ever committed in this city and we hope the rascals will be brought to justice, and every dollar of the money recovered.

CANYON CITY NEWS

[From the Mountaineer July 31

By the arrival of Lockwood & Edgar's Stage from Canyon City last evening, we received a letter from our correspondent from which we take the following

There is a rumor that new mines have been discovered on the Malheur River and quite a large number of men have left for that locality.

Several men that went out with old Meek to look for the "Emigrant Mines" have returned. They say that Meek knew nothing about the country after they got to Stein's Mountain. The party broke up, some of them going to the head of Crooked River the others—excepting those that returned to Canyon City—to Owyhee.

On the 26th instant Wm Raykelly accidentally shot himself with a double barrelled shot gun while at Soda Springs, killing him instantly. He was well and favorably known at Canyon City and leaves many friends to mourn his sad fate.

The weather has been extremely warm, the thermometer ranging from 90° to 100° in the shade. Trade is rather dull but as this is the fall season no one complains.

The election contest is still in progress. The Democrats do not appear to relish the dish set before them by the New York Convention.

Mr Wheeler, the gentlemanly driver for the stage company informs us that the roads are in splendid condition and that as far as he drives, the people along the road are all in a good healthy state and most of them are getting rich.

A letter from Canyon City July 18th, has the following

It is expected that the contract lately awarded Mr Lockwood for a daily mail from Salt Lake City to the Dalles [illegible] but it appears that there was a mistake. It is a fact that cannot be disputed that this is the shortest and [illegible] route from [illegible] to the Dalles [illegible] the people of this county are entirely [illegible] [illegible]

[illegible] of the 31st says [illegible] for the past week has been extremely dull [illegible] country is rapidly filling up with an industrious class of people. Freights to Canyon City [illegible] cents.

The New York police made 1 931 arrests during the days on which the Democratic Convention was held in that city, which is about 1 900 more than were made in Chicago during the session of the Republican Convention.

WASHINGTON July 31 —The President has officially proclaimed ratification by both parties of the treaty concerning citizenship with Prussia.

Blair, the Revolutionist, Makes a Speech.

LEAVENWORTH July 31 —General F P Blair addressed an immense meeting here to night. His speech was principally devoted to radicals regarding reconstruction records and to General Grant. He charged that Grant had changed his views of reconstruction having at the close of the war urged the immediate admission of Southern Congressmen. He said the secret of the [illegible] her nee of Grant Sheridan and other army officers to the radical party is, that the tendency of the party being to overthrow the prerogative of the Executive and Supreme Court, looks towards military despotism which would give prominence to officers of the army. He denied that the sentiments expressed in his New York letter were revolutionary and said the radical party made Copperheadism respectable.

WASHINGTON July 31 —The annual statement of the Post Office Department will show an alarming deficit amounting to $3,000,000 for the past year.

The Campaign as Opened by the Democracy

A political item in an Eastern newspaper states that Gen. Beauregard, Basil Duke and a number of the men who accompanied the rebel Morgan in his famous raid north of the Ohio, had arrived at Cincinnati in company with Jesse D. Bright, on their return from the New York Convention. It is presumable that these men were sent west to show themselves for the double purpose of rousing Democratic enthusiasm, and assuring the Western copperheads that in losing Pendleton, they had not lost all; that they still had the active sympathy and co-operation of the most reliable class of Democrats—the rebel raiders and the rebel military leaders. It would have been somewhat interesting to witness the social and political amenities which were practiced during the triumphal tour of Gen. Beauregard and Morgan's men among "our friends" of Ohio and Indiana. The troopers who rode so daringly on the abolition side of the Ohio, of course demanded and received proper explanations why they were not "let alone" on that occasion, and then everything was lovely and pleasant among the brethren of one faith, it being expressly understood that the friends of the lost cause, on the north side, were in no way responsible for the hindrances put in the way of transferring the horrors of war to the north side of the Ohio river. The Democratic Knight of the Golden Circle clasped hands with the Democratic Kuk Klux-Klansman and the two pledged their mutual efforts for the immediate restoration of the country to peace and unity on the basis of another revolution. At this point, hurrahs for Blair. There could be no disagreement on the question of putting down the nigger. The chief of the Kuk-Klux's could not understand the necessity of decorating the lamp-posts of the country with dead "free niggers," nor the propriety of illuminating the nineteenth century with the glare reflected from burning, "free nigger" school-houses and orphan asylums, in any degree better than did his northern Democratic brother, as early as 1863. Of course the representatives of the two sections struck willing hands on this question. At this point, hurrahs for Seymour and the New York rioters. It may fairly be presumed that the Democratic tourists and their Democratic entertainers, "reposing their trust in the intelligence of the people" jubilated to an extent over the prospects of an early resurrection of the "lost cause;" the certainty that "secession still lives" and that "what the Confederate soldiers fought for would be won by the election of Seymour and Blair." At this point, hurrahs for Henry A. Wise and Gov. Vance, as having touched the key note of the campaign. We must admit that there was a fitness of things in sending Gen. Beauregard, fresh from the Convention, to show himself to the Democracy of the West. As he was the first to sound the alarum of war in 1861, when the Southern heart had been sufficiently fired to undertake the job of correcting the mistakes into which the framers of the government—innocent and unsophisticated people—had fallen, so he should be the first to proclaim that the great American Democracy has entered the field again with a platform and candidates pledged to the Southern chivalry and to another revolution. As it was he who was the herald and for a day the representative of the great Democratic party of secession, it was appropriate that he should also be the herald from the Democratic Convention which has declared that nothing has been settled by the rebellion, and that the abettors and leaders of sedition are to be set up in business again.

Another political item states that Wade Hampton, Forrest, Barksdale, Preston, Fairfax, Forsyth, Yerger, and other rebel demagogues are to take the stump against Grant in the Northern States. This, too, has a fitness of things in it. Gen. Grant stumped pretty roughly against some of these Democratic orators when they were in the field in 1862-3-4 and 5 and it is natural enough that they are yet unable to overcome their resentments for the many injuries he inflicted upon them. It is not in human nature and reason to expect of them to omit an opportunity of showing their teeth to the man who took Lee's sword and gave the last stab to the Confederacy. But as they had but indifferent success in their former tilts against Grant, it is hardly worth while to worry very seriously about the damage they may do him now. We must, however, admit that in these several preparations, there is something sublime—the sublimity of impudence, that these men who have been saved from a halter as punishment for treason, only by the magnanimous clemency of the Northern people, should come up among us to teach us how to restore the Union.

The sixth resolution of the Democratic platform, demands economy in the administration of the government. Economy is a good thing in its way, and we are glad to see that both the party platforms demand and promise its practice. As a good, practical lesson in economy, we ask the Democrats to study Gen. Grant's administration of army affairs, both as General and as Secretary of War, *ad interim*. While at the head of the War Department upwards of $12,000,000 of army expenses were lopped off. The present movement for still further reducing the army is understood to have been suggested by him. En passant, this does not look much as though Gen. Grant has any notion of becoming a military dictator as is absolutely charged by dishonest and uncandid Democrats. The savings effected by Gen. Grant's military administration are all in favor of the government and not a turning of the currents of expenditure from one direction to feed expenditures in another. Should our Democratic fellow citizens who demand economy, find in Gen. Grant's way of practicing it, what they seek, we suggest a further search into the record of their candidate, Seymour, as Governor of New York. We do not fear the result, and we challenge comparison of the records of the two men. If Democrats *honestly* demand economy, we suggest that the best thing they can do is to vote for Gen. Grant, who practices what his antagonist merely professes to want.

We have often been asked lately when the State Fair will begin. The opening day is September 28th and the fair will continue six days.

EDITORIAL CORRESPONDENCE.

MATTERS ABOUT EUGENE.

EUGENE CITY, July 31, 1868.

Proceeding up the valley, as the distance increases from the commercial centre of the State, so the public interest in railroads appears to increase. Here the inconvenience arising from want of means of travel and transportation is most sensibly felt; and though the lower portions of the valley experience the same thing, it is in infinitely less degree than here. To appreciate the interest which is taken in these matters by the people throughout the larger part of Wallamet valley, it is necessary to go among them. In truth, the country is languishing for want of the stimulus which a railroad would give it. Here is the most beautiful valley in the world; rich land, picturesque situations without number, unlimited water power, timber in abundance, and an extent of country which would easily afford homes and support for all the inhabitants of the Pacific coast, yet its growth in wealth and population is slow because such is the cost of transportation, that labor cannot find a profitable market for its productions.

The "railroad war" has extended to some of the upper counties of the valley, where it appears to be more fierce and bitter than where it had its origin. In Lane it seems comparatively quiet, but in Benton it has been and is still raging with fearful fury. Prominent citizens have threatened to make handles of each other's noses for purposes of indignity, and have even gone so far as to threaten the exposure of each other's internal anatomical structure to the light of the sun and to the eyes of the multitude. But these truculent demonstrations have not been carried so far as to seriously threaten the safety of any of our fellow citizens, and the champions of each side still live to contend for their respective enterprises.

It is not the province of an outsider to meddle with other people's business; nevertheless the remark is hazarded here that the east side road is making a mistake in proposing to cross the river at Corvallis. This deflation leaves the large and valuable tract of country extending from opposite Corvallis to the head of the valley—a tract fifteen miles in width by fifty in length,—without railroad facilities. It increases the length of the route, and adds to the cost of construction the bridges which it will be necessary to throw across the Wallamet. The west side road—and a road is as certain to be built on the west as on the opposite side—will serve all the country on the west side of the river. If the Humboldt branch is built, of which it is understood the east side men are very sanguine, they will discover in time that their true policy is not to cross the Wallamet at all, but to take the nearest and the natural route on the east side of the valley and up the Middle Fork.

THE "STATE TEACHER'S INSTITUTE"

has been session here for several days. The arts any mysteries of imparting instruction to the "common mind" have been elaborately discussed. An official account of the proceedings will no doubt be published. Some good discourses on subjects relating to education have been delivered. To be impartial, the remark must be added that some time was consumed by the delivery of twaddling declamations and a show of cheap learning. Good food is a good thing, and highly important for the development of both the physical and mental powers; but when a gentlemen argued that there was a certain element of food most favorable to perfect intellectual development, and that that element was *bran*, one could not help thinking that here was a gentleman who had just become acquainted with the profound philosophy taught in the publications of Fowler & Wells, and that he had hastened to give the world the benefit of his valuable discovery.

THE HISTORY OF A CHURCH BELL.

Eugene is a town of churches, almost every denomination being represented here. It is related that one of the church edifices of the place is adorned with a bell which was procured many years ago by the sacrificing efforts of a minister who was instrumental in organizing the society. A bell was needed and he knew no way of getting one. He had a colored woman in his family, and after giving the matter about the bell his long and prayerful consideration, he concluded to take the woman to California, dispose of her and apply the proceeds in a truly Christian way to meet this demand. The resolution was finally fulfilled, and to this day the flock is called together—though it meets but seldom now—by a bell which was obtained through this laudable zeal of an earnest brother in the gospel. Such is the history which several citizens of Eugene give of this bell.

SPRINGFIELD,

three miles west of this place, is flourishing, and will be a valuable point on account of its water power. The water from the Middle Fork of Wallamet is conducted through a race about four miles long, gaining in this distance a fall of thirty feet. The whole river could be used if desired. At present flouring, saw and planing mills are driven by this power. Next year a woolen factory will be added—arrangements having already been made at the East for the machinery. No part of the Wallamet valley can surpass in beauty or fertility that in the vicinity of Springfield, and the people there say they are only waiting for a railroad to make their location all that they desire it.

SURVEYS OF THE STATE.

Maps and diagrams in the Surveyor-General's Office show that much progress is making in the extension of surveys throughout the State. Meridians and parallels have been run in Eastern Oregon so that the surveys there may now be pushed forward in a rapid and systematic manner. At this time surveying parties are at work in the valley of the upper Deschutes, on Sprague's river and about Goose Lake. Extensive surveys will be made this summer in Wasco, Umatilla, Union and Baker counties, and considerable work will be done in Douglas, Benton, Tillamook, Clackamas and Coos. At Yaquina Bay and on McKinzie's Fork are lands which will also be surveyed. No surveys of any description have yet been made in Grant county, but that county will receive attention at an early day. The Deschutes and Grand Ronde meridians have been run from north to south to within a few miles of the California line, and will be closed up when the boundary line between Oregon and California is established. A company under orders from Washington is now engaged in running this line. There are many thousands of acres of excellent timber lands along the skirts of the Wallamet valley and adjacent to the coast which ought to be surveyed, but surveyors will not take these jobs at the contract price. It will cost more to survey these lands than those which lie open to the view; yet the work ought to be done because settlements are continually penetrating these unsurveyed localities and the Government is losing much valuable timber which is being rapidly cut away at almost every place where it can be made available. Our delegation in Congress ought to see to it that a somewhat larger sum is provided for the survey of these lands than for others. No better lands exist than many of these large timber tracts, and they will eventually be brought into profitable cultivation.

During the year 1867 1,113,000 acres of land was surveyed and subdivided in this State. The appropriation for surveys in Oregon for the present year is $40,000, which will probably survey as much more, though this money may not all be expended this year.

POLITICAL ASPECTS.

There is political quiet now in this part of the State. None but Republicans have anything to say. No war cry has been heard from the Long Tom Confederacy since Seymour, the bondholders' candidate, and Frank Blair, the Federal butcher, were nominated. There is less enthusiasm and more general dissatisfaction among the "Democracy" now than at the time of McClellan's nomination. This is observable all through the State. The party feels that it has been sold, and that by the action of the Convention the contest has been shorn of everything which gave it importance. Even negro suffrage is virtually accepted in the platform. The nomination of Pendleton would have moved the Democratic party to action as by a mighty impulse. As it is, it is easy to see that the campaign on their part will go on coldly. With proper effort and discreet management the vote of the State might be given to Grant and Colfax. Every man who voted with us in June is with us still, and numbers are heard of in every county who voted the opposite ticket then who will vote for the Union Republican candidates in November. The effort to secure the State to Grant and Colfax may not seem to be a very hopeful one; nevertheless it is well worth making.

S.

FROM IDAHO.

WINNEMUCCA CAPTURED.

The *Avalanche* of the 25th ult. says:

A gentleman connected with Maj. Walker's scouting party, writing from near Steen's Mountain, July 18th, has furnished us with the following glad tidings: "Our scouting party, consisting of Maj. Walker, Lieut. Lewis and thirty men, 23d Infantry, and ten Indian scouts with Reed, have captured the greater part of Winnemucca's band, consisting of some seventy or eighty savages, and will take them to Camp Harney in a few days and turn them over with the rest now there. Owing to the strong position of the Indians in the mountains it was not thought expedient to make an attack. The scouts were sent to the camp with a prisoner recently taken by Reed, to have a talk. They soon returned with seven, three of whom were chiefs, and after a long talk they agreed to go with their whole band to Camp Harney." The writer expresses the belief that Winnemucca's band will no longer be the terror of unprotected travelers. Space forbids further notice this week.

LABORERS WANTED.

The Boise *Democrat* of the 25th says: Quite a number of men could find employment at good wages in the harvest fields of our valleys. We hear every day of our farmers wanting help. Send us some good men who are willing to work.

We clip the following from the *World* of the 25th:

MATTERS IN NORTHERN IDAHO.

W. G. Langford, Esq., a prominent lawyer of Walla, Walla W. T., arrived in town yesterday, over the trail from Warren's, Florence, Slate Creek, and other camps in Northern Idaho, where he has been professionally engaged. He came in company with Messrs. Tickner, Cunningham, Jones, and another from Northern Idaho, and was five days on the journey. They met upwards of fifty men, on the way to the newly discovered diggings in Idaho county, a few miles from the Lewiston trail, and about one hundred miles from here. The trail is in good condition, water, grass and wood plenty; and the streams all easy forded. The water in the Payette is unusually warm, and all along the valley gnats and huge horse flies terribly annoy travelers and horses.

THE POWELL & CO. BURGLARY.

About midnight of Tuesday, the brick store house of Powell & Co., on Wallula street, in this city, was entered by a hole made in the brick wall, their safe taken out, carried down into More's creek, two or three hundred yards away, and there it was broken into by a pick and sledge hammer, and its contents abstracted, consisting of gold coin, bars, dust, and greenbacks, to the value, we are informed, of between $12,000 and $15,000. The notes, papers and books were not taken. The safe was found in the creek bottom, Wednesday morning. It weighs about 900 pounds. Tracks of bare feet were discovered at the store house and traced to where the safe was broken into. We learn that a possible clue has been obtained of the perpetrators, by which it appears Chinamen were involved in the burglary and robbery. It was certainly the most audacious deed ever committed in this city, and we hope the rascals will be brought to justice, and every dollar of the money recovered.

CANYON CITY NEWS.

[From the Mountaineer, July 31.]

By the arrival of Lockwood & Edgar's Stage from Canyon City last evening, we received a letter from our correspondent, from which we take the following:

There is a rumor that new mines have been discovered on the Mulheur River, and quite a large number of men have left for that locality.

Several men that went out with old Meek to look for the "Emigrant Mines" have returned. They say that Meek know nothing about the country after they got to Stein's Mountain. The party broke up, some of them going to the head of Crooked River, the others—excepting those that returned to Canyon City—to Owyhee.

On the 26th instant, Wm Raykelly, accidentally shot himself with a double barrelled shot gun, while at Soda Springs, killing him instantly. He was well and favorably known at Canyon City, and leaves many friends to mourn his sad fate.

The weather has been extremely warm, the thermometer ranging from 96° to 100° in the shade. Trade is rather dull; but as this is the dull season, no one complains.

The election contest is still in progress. The Democrats do not appear to relish the dish set before them by the New York Convention.

Mr. Wheeler, the gentlemanly driver for the stage company, informs us that the roads are in splendid condition, and that as far as he drives, the people along the road are all in a good healthy state, and most of them are getting rich.

A letter from Canyon City, July 18th, has the following:

"It is expected that the contract lately awarded Mr. Lockwood, for a daily mail from Salt Lake City to the Dalles, was by the way of this place, but it appears that there was a mistake. It is a fact that cannot be disputed, that this is the shortest and best route from Boise to the Dalles, and how it comes that the wishes and solicitations of the people of this county are so entirely neglected in relation to mail facilities, is something that is not understood, and it causes much dissatisfaction. There is but one postoffice for the entire country, and that is here. John Day Valley, a section of country fifty miles in extent, thickly settled with as enterprising people as inhabits any country on the face of God's earth, are certainly entitled to some little attention by way of mail routes and mail facilities. There should be, at least, three postoffices in this valley—one at Canyon City, one at Dixie and one at South Fork. This but justly due this section.

"Major Rhinehart and family arrived here during the week, and I understand intend to locate permanently in this city.

"Mr. Edgar informs us that a band of some fifteen or twenty Indians made their appearance on Bridge Creek the other evening. They were heading north, so I suppose we may expect to hear of some depredations soon."

The *Mountaineer* of the 31st says: "Business of all kinds for the past week has been extremely dull. There has been very little travel on the river. The stages to Canyon City, however, continue to be loaded every trip. That section of country is rapidly filling up with an industrious class of people. Freights to Canyon City, 3½ cents.

The New York police made 1,931 arrests during the days on which the Democratic Convention was held in that city, which is about 1,900 more than were made in Chicago during the session of the Republican Convention.

By Overland Telegraph.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JULY 30.

LAST NIGHT'S DISPATCHES.

Vessels to go out of Commission.

WASHINGTON, July 30.—In consequence of the enactment of a law by Congress, making a large reduction of the force of seamen in the navy, Secretary Welles has ordered a large number of vessels now in service abroad to be brought home and put out of commission. It is not known what vessels will come home, as they will be those which can be best dispensed with by the commanders. The crews will be discharged and the officers assigned to other duties.

Presidency of the Erie Railroad.

NEW YORK, July 30.—Mr. Eldridge has resigned the presidency of the Erie railroad and Jay Gould is elected instead.

Western Union Telegraph 34.

The Suits Against Gen. Butler.

BOSTON, July 30.—The *Journal* publishes a letter from Butler, relative to the suit brought against him in Baltimore, and says the purpose of Wooley's suit is obvious. Kimberly Bro's. claim is for rents paid by them for the occupation of Government lands, which amount was fixed by the Government Board of Surveyors.

The Chinese Embassy.

NEW YORK, July 30.—The Chinese Embassy goes to Auburn on Monday by invitation. Secretary Seward and different foreign ministers at Washington are also invited, but it is not known who will accept. The Embassy goes thence to Niagara Falls and Lake George, then to spend a month in Boston, after which they remain in New York until their departure for Europe in September.

Magnificent Reception to Schuyler Colfax.

CHICAGO, July 30.—Schuyler Colfax had a magnificent reception to-day upon his return home to South Bend, Indiana. Several thousand assembled to welcome him. Mayor Humphreys delivered the welcoming address, and Colfax replied in a brief speech, avoiding political subjects. Other speeches were made. Demonstrations in evening with fireworks, etc.

Alabama Legislature.

MONTGOMERY, July 30.—Senate consumed the entire day discussing the bill to punish Ku Klux.

The House considered the common carrier bill, which punishes railroad and steamboat officers who make distinctions on account of color.

Facts from Agricultural Report.

CHICAGO, July 31.—The Agricultural Department issued a report on the condition of crops in July. The most remarkable fact in connection with the corn crop is the great increase, on an average, in the South, the difference since last year being over two and a half million acres. The increase throughout the United States amounts to thirty six million acres. The condition of wheat is about average except in Vermont, Connecticut and the Southern States.

Cotton shows an average reduction of ten per cent. and crops reported in splendid condition with a prospect of the finest yield for years.

Rice, oats and barley promise abundant crops. Potatoes are unusually good. Fruit is variable. Apples and peaches are less promising than usual.

WASHINGTON, July 31st.—Binckley, late Assistant Attorney General, is appointed Solicitor of the Internal Revenue Bureau.

The Russian Minister has received a draft for payment for Alaska.

Great Fire at Oil City.

OIL CITY, July 31.—One of the most disastrous fires that ever visited the oil regions, occurred here at one o'clock this morning, destroying, in all, two hundred buildings and rendering homeless as many families. The oil interests are suffering but very little.

Ratification of the Treaty with Prussia.

WASHINGTON, July 31.—The President has officially proclaimed ratification by both parties of the treaty concerning citizenship with Prussia.

Blair, the Revolutionist, Makes a Speech.

LEAVENWORTH, July 31.—General F. P. Blair addressed an immense meeting here to-night. His speech was principally devoted to radicals, regarding reconstruction records and to General Grant. He charged that Grant had changed his views of reconstruction, having at the close of the war urged the immediate admission of Southern Congressmen. He said the secret of the adherence of Grant, Sheridan and other army officers to the radical party is, that the tendency of the party being to overthrow the prerogative of the Executive and Supreme Court, looks towards military despotism, which would give prominence to officers of the army. He denied that the sentiments expressed in his New York letter were revolutionary, and said the radical party made Copperheadism respectable.

WASHINGTON, July 31.—The annual statement of the Post Office Department will show an alarming deficit, amounting to $8,000,000 for the past year.

Turbulent disposition in New Brunswick.

ST. JOHNS, N. B., August 1.—A strong anti-Union meeting was held at Yarmouth yesterday. Resolutions were passed expressing indignation at the refusal of the Imperial Parliament to redress the wrongs of Nova Scotia and threatening to take high-handed measures to secure the deliverance of the country from its present position.

Mortality in New York—Mason Strike.

NEW YORK, August 1.—The alarming increase of mortality in this city is deriving special attention. To the sanitary condition of the metropolis much of the increase of deaths is directly traceable to defective sewerage and a deficient supply of water for family purposes.

The master masons had a meeting yesterday, and appeared more than ever determined not to yield to the demand of the strikers. It is stated that over forty bosses are employing ten hour men and only eight or ten working eight-hour men.

Commissioner of Internal Revenue.

CHICAGO, August 1.—A *Republican* special says the President has tendered the office of Commissioner of Internal Revenue to ex-Governor Cox, of Ohio. If Cox accepts Rollins will immediately resign.

Horse Thieves Hung.

MEMPHIS, August 1.—Three horse thieves, who were being brought to this city under guard, were taken by a mob of forty masked men last night and hung. The mob surrounded the party and overpowered them.

BY ATLANTIC CABLE.

LONDON, July 30.—The *Standard*, commenting on the funding bill, thinks the proposed new bonds no better than the former, as a future Congress may alter their value by the enactment of new laws.

LONDON, July 30.—Additional news from Rio says dispatches are received from Marquis Caxias announcing the capture of the fortress of Humaita. No particulars are given, and the terms of surrender are not stated.

The dispute between Caxias and American Minister Washburne is unsettled. The cause is said to be the refusal of Caxias to permit the American steamer *Wasp* with Washburne aboard to proceed up the Parana river. Mr. Webb, the American Ambassador at Rio, remonstrated with the Brazilian Government against this interference with the movements of Minister Washburne, and will demand his passport if the steamer is again detained.

Reports from Paraguayan sources give the particulars of a reconnoissance in force by the allies. A severe engagement took place in which the allies were repulsed with heavy loss. The same accounts represent the position of the Paraguayans at Humaita as very strong and as well made as ever, with no prospect of a bombardment of the extensive fortifications. Timbo has been repaired, garrisoned and the river at that point effectually closed with chains. The above accounts are necessarily of a later date than the news from Rio. No intimation is given of General Lopez having sued for peace.

PARIS, July 31.—An Imperial decree suspends for three months from October 1st, the collection of tonnage dues from all vessels entering French ports with cereals.

SHANGHAI, July 4.—News from Japan says a compromise has been effected between the Daimios of North and South, which will probably lead to a speedy termination of hostilities between the Mikado and Tycoon.

LONDON, July 31.—Parliament was prorogued to-day. The Queen was not present and her speech was read by the Lord Chancellor. It speaks of the foreign relations of Great Britain as most friendly and satisfactory. She says there is no reason to fear war in Europe. No reference is made to the United States. The Abyssinian expedition is said to have vindicated the honor of the country. The cessation of all attempts at rebellion in Ireland renders the further use of the exceptional power granted by the two houses needless. The Queen thanks the Commons for supplies voted, and congratulates them on the passage of the Irish and Scotch reform bill, the public school bill, the bill for the purchase of the telegraph lines, and others of a less important character. The speech also announces that a dissolution of Parliament will soon take place in order that the people may reap the advantage of the more extended system of representation recently provided. She is confident of their fitness for their new duties, and that their service will be for the perpetuation of that civil and religious freedom which secures the institutions of the nation.

The *Times* says of the session that time will only show which of the leaders shall retain their status in a change from the old to the new body. Bright will find in a new House of Commons a more agreeable audience than in the days of Palmerston and Gladstone, whose popularity may yet reach to a House elected by one constituency and be deemed to satisfy the requirements of another House, which may be satisfied in spite of his shortcomings with such work as the abolition of church rates, the punishment of electoral corruptions, and the condemnation of political and church abuses.

MADRID, July 30.—The Government has refused to accept the resignation of admiral Nunez, commander of the Spanish fleet in American waters.

LONDON, July 30.—The pending political troubles in Spain have resulted in a ministerial crisis and it is understood that the distinguished liberal statesman Espartero has been summoned to form a new cabinet and has gone to Madrid for that purpose. Discontent continues to prevail in Spain and threatens to break out into armed insurrection at any moment. Disaffection is also apparent among the officers of the fleet.

ST. PETERSBURG, July 30.—Under the preliminary arrangements for peace made with Bokhara, the Russian troops are to leave the country at once, the Kahn paying the Russian Government half a million in silver roubles as indemnity for expenses of the war.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, August 2.—Frank Murphy, recently an employee of Meagher, Tuafe & Co., has been arrested on the charge of defrauding his employers to the amount of three hundred dollars.

The steamer *Sacramento* arrived from Panama this morning.

Mr. Browne, Minister to China, and suite, visited the flag ship *Pensacola* yesterday, and were received with the customary salute.

Judge Dwinelle yesterday gave judgment for 5,532 dollars in favor of John H. Sweet against the Central American Transit Co. The plaintiff was one of the passengers on board the wrecked steamer *Golden Rule*.

There were 11 deaths from small pox in this city during the past week.

Markets.

Gold closed at 144½ in New York last night.

Shipping.

Arrived—Ship *Blue Jacket* 150 days from New York; *Lady Hale* 57 days from Valparaiso.

The balance of the machinery for the Dalles Woolen Mill has arrived, and the workmen are now engaged in setting it up. The flume is completed, and the water running in the reservoir. There is yet a small amount of work to do to the water power, but it is expected to get the mills in operation by the 10th of the present month.

Great numbers of people are going across the coast range to Salmon river, Yaquina and other points, in quest of health and pleasure. This hot weather is very moving—coastward.

It was a Saying

Of Paley, a most distinguished writer, that he who is not a fool *half* the time, is a fool *all* the time. This *may* or *may not* be true. We do know, however, that many persons are foolish who are suffering from dyspepsia and its kindred evils, who do not try

Can it be possible that over Five Million Bottles of PLANTATION BITTERS have been sold during the last year! It is almost incredible, nevertheless it is absolutely true, and is the most convincing proof of their wonderful medicinal and health restoring qualities. Every family should be supplied with these Bitters at whatever cost or trouble it may be to obtain them. Be careful that you get the genuine and that you are not imposed upon by a spurious article

INQUIRE WITHIN —The mouth is like a house to let However pretty it may be externally it is impossible to judge of its merits until you have seen the inside If behind the ruby doors there are plenty of pearl white fixtures, you will exclaim at once How beautiful! To impart the utmost possible brilliancy there is nothing like fragrant Sozodont

Portland Oregon July 28 1868

As there are a great many people sick and dying of a disease called Cholera Morbus I would call attention to the Chinese Doctor Jim Having eaten green fruit I was taken very bad with the above disease and lay insensible for four hours when Dr Jim was called and in 20 minutes after he gave me the first dose of medicine I was easy and asleep I believe that there is no other doctor on the Pacific coast that could have relieved me as quick as Dr Jim did M G MORGAN

By Dr. Richardson's Apparatus, Lately Improved by Dr. Koehler, with Ether Spray.

WILLIAM KOEHLER,

DENTIST,

OFFICE—Southwest corner Front and Yamhill Streets, opposite E J Northrup & Co's Hardware Store

I am now making amongst numerous other styles of ARTIFICIAL TEETH the improved Vulcanite Plates of Dr G W Cool's Patent, patented Dec 3 1867, the improvement of which consists in lining the entire concave surface with fine gold It not only makes the plate double as strong and cleanlier than the common Vulcanite Plate It also can by it be made considerably thinner and lighter, whereas the price is but little above that for common plates Call and see specimens

N B —Dentists wishing to secure the office right for Dr G W Cool's Improved Vulcanite Plates can have it made out to them by applying to this office

N B —To strangers I would say that a constantly increasing Dental Practice for the last five years in this city will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work Numerous testimonials to the same can be given at the office

NEW INVENTION.—Messrs A. J. Adams and R. P. Quivey, of this city, have received letters patent for an animal trap, invented by Mr. Adams. This trap is adapted to the capturing of animals of all sizes, and can be used with bait, or being set in the path it "goes after" the animals without bait. It consists of two pairs of sharply pointed hooks which are held apart by a spring; when the trap is set, and as the animals go into the trap either to feed upon the bait, or as they pass over it, they press upon the trigger, and thus spring the trap, when the hooks instantly close and pierce the animal through the head or body, thus depriving the animal of life, liberty, and the pursuit of prey, at one and the same time. One of these traps, now in possession of Capt. Douglas on the ferry boat, has caught nine beavers, having only missed capturing a victim once in ten times. The construction is simple and cheap, and will be very useful.

REWARD OFFERED.—[illegible] of Deer Lodge county, Montana Territory, offers a reward of [illegible] for the apprehension and detention of Owen Mullen, Thomas Brooks and John Sullivan, the murderers whose escape from the jail of that county we noticed a few days ago. Mullen is five feet eight inches high, dark complexion, thirty two years old and weighs [illegible] pounds. He is slightly [illegible] and has the Irish brogue in his conversation. [illegible] is five feet [illegible] inches high, light complexion, blue eyes, short [illegible], straight build, weighs [illegible] and is 30 years of age. OREGON PRODUCE RECEIPTS.—By the river steamers on Saturday the following Oregon produce was received: 800 gunnies wheat, 500 qr sks flour, 64 gunnies oats, 5 [illegible] 11 cases rodeo.

IN THE [illegible] COURT. HOFFMAN, RECORDER.—On Saturday, John Williams, [illegible] ex-soldier, was arraigned in this Court for indecent conduct, and sent to jail for twenty-five days.

HOT AS HOT.—In the shade, yesterday, the thermometer went up to ninety-eight degrees. This is the highest it has reached this summer. It is hoped it won't go up any further.

CAN it be possible that over Five Million Bottles of PLANTATION BITTERS have been sold during the last year? It is almost incredible, nevertheless it is absolutely true, and is the most convincing proof of their wonderful medicinal and health-restoring qualities. Every family should be supplied with these Bitters, at whatever cost or trouble it may be to obtain them. Be careful that you get the genuine, and that you are not imposed upon by a spurious article.

INSPIRE WITHIN.—The mouth is like a house to let. However pretty it may be externally, it is impossible to judge of its merits until you have seen the inside. If behind the ruby doors there are plenty of pearl white fixtures, you will exclaim at once, "how beautiful!" To impart the utmost possible brilliancy, there is nothing like fragrant Sozodont.

"SPALDING'S GLUE."

HOSTETTER'S CELEBRATED STOMACH BITTERS!

A Pure and Powerful Tonic,

Corrective and Alterative, of wonderful efficacy in Diseases of the

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels, Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether Inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element, no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.

[illegible] weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

Vote of States for President.

[From the S. F. Bulletin.]

Congress has passed over the President's veto the act excluding from the Electoral College States not represented. Under this there will be no more than three States excluded—Virginia, Texas and Mississippi. The two first of these have yet to vote on the Constitution adopted in Convention, and the third has rejected the Constitution submitted to her people. Eight of the eleven seceding States, including Tennessee, are now restored to the Union, and will participate in the next Presidential election. How those will vote at the election is a question of great importance. One might consider it determined by the declaration of the National Democratic Convention that the Acts under which they will vote are unconstitutional and void, for certainly if their suffrages were expected for Seymour and Blair, such a declaration would hardly have been made. But there is stronger evidence than this. Tennessee, the first State restored, gave a Union majority last year of 51,936 in a total vote of 92,032. This majority may be reduced in November next, but Tennessee may be counted as morally certain for Grant. On the vote for calling constitutional conventions under the reconstruction acts, at the elections of 1867, heavy majorities in the affirmative were given by Alabama, Arkansas, Florida, Georgia, Louisiana, North Carolina and South Carolina, the States just admitted to representation. During the present year all of these States have given reduced majorities for ratification of the Constitutions, and elected Union State officers and Union Legislative majorities. It is expected that nearly the same vote will be given for the Union Presidential ticket, for it is not to be presumed that the colored voters, who hold the balance of power at this time, will go in large numbers for the party which announces its purpose to disfranchise them. Ignorant as the freedmen are, they know too much to vote away a privilege which secures the practical protection of their freedom and civil equality. Had the New York Convention acquiesced in the result of the reconstruction acts, and refrained from any threat to repeal negro suffrage in case of Democratic success, the Southern politicians might reasonably expect to secure a large proportion of the negroes for Seymour.

The States enumerated are entitled to 57 votes in the Electoral College. Grouping them with the other States that are claimed as morally certain for Grant, we obtain the following result:

UNION STATES.

	Electoral Votes.		Electoral Votes.
Alabama	8	Minnesota	4
Arkansas	5	Missouri	11
Florida	4	Nebraska	3
Georgia	9	New Hampshire	5
Illinois	16	North Carolina	9

RECAPITULATION.

Union Electoral vote	190	Necessary to a choice	143
Doubtful and Dem	104	Union maj. in excess	47
Total in Elec'l College	284	Union over Dem. vote	96

This is the most favorable showing for the Democratic ticket we can figure out. It may possibly receive the vote of two or three Southern States—say of Alabama, Georgia and Louisiana, but [illegible] gives it only 24 more in the Electoral [illegible], leaving the Union majority still 23 in excess. As an offset to this concession, there are many who will object to classing Ohio as a doubtful Democratic State. The Union candidate for Governor of that State was elected last year by a majority of only 2,783, showing a falling off of nearly 40,000 in one year; but the reaction this year may be the other way, and the strong soldier vote of Ohio may bring Grant's majority up to at least 20,000. California, too, although there have been some Southern accessions to its [illegible], may regain its Union prestige. The majority for Haight over Gorham and Fay was 6,456; but it is known that thousands of Republicans who supported Haight for local [illegible], will this year support Grant, and it is known that thousands who refused to vote at all last [illegible] are now earnestly for the Union National ticket. The Democratic majority for Lieutenant Governor was only 3,873, and at the judicial election a month afterwards, the Democratic majority for Justice of the Supreme Court was hardly 1,500. The vote polled at the Gubernatorial election was less than 93,000, and was generally conceded to be 10,000 to 15,000 less than the actual vote of the State. With a full poll this year, and a return of the Republican vote which went for Haight to its old proclivities, the [illegible] of carrying California for Grant will be encouraging, notwithstanding a considerable Democratic immigration. But the electoral vote of this State is only five, and if lost to Grant, cannot change the national result as above estimated.

THE following "marriage maxims" are worthy of more than a hasty reading. Gentlemen need not pass them by, for they are designed for *wives;* and ladies should not despise them, for they are [illegible] *to husbands.*

The very nearest approach to domestic felicity on earth is in the mutual cultivation of an absolute unselfishness.

Never talk at one another, either alone or in company.

Never both manifest anger at once.

Never [illegible] loud to one another unless the house is on fire.

Never reflect on a past action, which was done with a good motive and with the best judgment at the time.

Let each one strive to yield oftenest to the wishes of the other.

Let self-abnegation be the daily aim and effort of each.

Never find fault, unless it is perfectly certain [illegible] has been committed; and then always [illegible].

[illegible] with a past mistake.

[illegible] the whole world besides, rather than [illegible] other.

[illegible] allow a request to be repeated.

[illegible] make a remark at the expense of the other.

[illegible] part, for a day, without loving words to [illegible] during absence.

[illegible] AND COMETS.—Professor Pepper, [illegible] Lenten Lectures on "physical astronomy," at the London Royal Polytechnic, [illegible] that fourteen years ago Dr. Bedford [illegible]ered the relation between meteor and [illegible], and announced their actual identity; [illegible] the time, and long since, it was regarded [illegible] mere theory; but within the last two [illegible] astronomers have proved the truth of [illegible]edford's discovery, which was made by [illegible] comparison of recorded phenomena [illegible] the earliest times. The Professor said [illegible] been proved by five mathematical ele[illegible] of the orbits of five several comets and [illegible]ors, and that the discovery is regarded as [illegible] of the grandest additions to astronomical [illegible]ce; and stated that Dr. Bedford has pro[illegible]nded entirely new theories of astronomy, [illegible] are most profound and very interest[illegible], and well worthy of being studied.—*M. & Press.*

[illegible]EES FOR THE PLAINS.—In the appropriation bill now before Congress, is a direction that eight thousand dollars shall be put at the disposition of the Secretary of the Interior, to be used for the planting of trees on the plains. The sum appropriated looks small, but it is enough to try the experiment. The move is a good one. Naturalists have not yet agreed as to the cause of so many treeless districts in the interior of the United States, but all do agree that there is no difficulty in the soil to interfere with the propagation of trees. The plains are bleak and desolate, and it is well enough for the government to ascertain if they can be made otherwise, before population extends its domain into their barren regions.

INCORPORATED.—In the Secretary of State's office articles of incorporation of the "Land [illegible]stment Company" have been filed. The [illegible] of this company are to engage in and carry on the business of buying and selling real estate, improving, leasing, renting and disposing of the same, and dealing in land generally. Capital stock, $120,000, in 400 shares of $300 each. The office and principal place of business will be located in the city of San Francisco. Trustees: William R. Wheaton, Henry [illegible] Davis, Adolphus D. Grinnwood, Samuel P. [illegible], Joseph S. Paxson, Francis B. Willde, [illegible] P. Williams, John Archibald and James L. [illegible].—*Sacramento Union.*

A fellow, on being asked [illegible] a testimonial for a patent clothes wringer, produced the following: "I am immensely pleased with it. I bought a load of wood which proved to be green and unfit to burn. I run the whole load through your clothes wringer, and I have used the wood for [illegible] ever since."

"As we two are one," said a witty brute to his [illegible], "when I beat you I beat half of myself." "[illegible]," said the wife, "then beat your own half."

TAKE **AYER'S PILLS** for all the purposes of a purgative, for Constipation, Indigestion, Headache and Liver Complaint. By universal accord, they are the best of all purgatives for family use.

SOOTHING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervous excitement as

DR. HOSTETTER'S STOMACH BITTERS.

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

PORTLAND, OREGON, July 14, 1868.

P. D. MOORE, Esq., SIR—

The undersigned having witnessed the exhibition in this city yesterday of your "Extinguisher," or Portable Self Acting Fire Engine, would state that the first experiment of a fire kindled outside of the building erected in the rear of the Central Public School House, made by using shavings, staves, tar, &c., was effectually extinguished with one machine in a short time; that the second experiment of a fire in the inside of the building, made by using shavings, kerosene, staves and dry stuff, was also promptly extinguished by the use of one machine in less than three minutes. The third experiment was left to the control of the Fire Department, under the direction of the Chief Engineer, and the building was fired inside and outside, and when the fire was well under way the Chief Engineer gave the order to "extinguish," and the fire was effectually put out in about six minutes. A brisk breeze was blowing at the time, and we pronounce the experiment [illegible] satisfactory. We are satisfied that the "EXTINGUISHER" is very valuable for what it claims, namely, the prompt extinguishment of fires in their earlier stages, and being portable, self acting and always ready at a moment's notice, would, if generally introduced, save much valuable property from destruction, and we regard it as a valuable auxiliary to the Fire Department. They are indispensable in those localities where no steam or other fire engine is in use, and we recommend their use generally in dwellings, stores, hotels, and public buildings.

Very respectfully,
W. H. WEED,
Chief Engineer Portland Fire Department.

ON BOARD THE "ALASKA," Portland, July 13, 1868.

P. D. MOORE, Esq.—Sir: I have just returned from witnessing the operations of your "Extinguisher," or Portable Self-Acting Fire Engine, and confess I was both surprised and highly pleased with its success.

I have no doubt whatever of its efficiency and adaptation to putting out fires in their earlier stages, however combustible the materials may be that are burning. Its action on a flame is really magical. They should be in every house of any value, or which contains valuable property, as well as on board of vessels. No one can estimate the additional security they give to both life and property. You will please furnish me *two of the No. 2 size* immediately, for the *Alaska*, as I sail for Honolulu to-morrow morning. Very respectfully,

R. CALHOUN,
Master of schooner "Alaska."

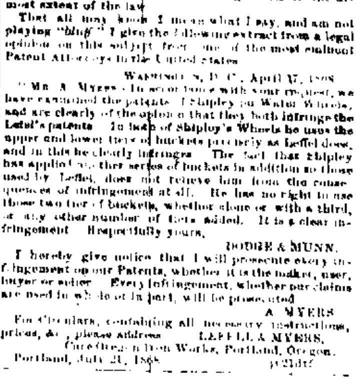
LEFFEL'S AMERICAN DOUBLE TURBINE



WATER WHEEL!

THESE WHEELS, UNEQUALLED AND UNRIVALLED in the United States or the world, have been fully tested on this coast, many being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

CAUTION.

To all whom it may concern: I hereby give notice that the so-called "Shipley's Pacific Turbine Water Wheel" is a direct infringement and copy of the "James Leffel's American Double Turbine Water Wheel," and its manufacture and use is hereby prohibited. Any person or persons making, using, constructing or vending said Water Wheels make themselves liable to heavy damages and penalties. Parties interested will take notice, for I shall prosecute all infringements to the utmost extent of the law.

That all may know I mean what I say, and am not playing "*bluff*," I give the following extract from a legal opinion on this subject from one of the most eminent Patent Attorneys in the United States.

WASHINGTON, D. C., April 17, 1868.

"MR. A. MYERS—In accordance with your request, we have examined the patents of Shipley on Water Wheels, and are clearly of the opinion that they both infringe the Leffel's patents. In both of Shipley's Wheels he uses the upper and lower tiers of buckets precisely as Leffel does, and in this he clearly infringes. The fact that Shipley has applied one other series of buckets in addition to those used by Leffel, does not relieve him from the consequences of infringement at all. He has no right to use those two tiers of buckets, whether alone or with a third, or any other number of tiers added. It is a clear infringement. Respectfully yours,

DODGE & MUNN.

I hereby give notice that I will prosecute every infringement on our Patents, whether it is the maker, user, buyer or seller. Every infringement, whether our claims are used in whole or in part, will be prosecuted.

A. MYERS.

H. W. SHIPLEY'S PACIFIC TURBINE WATER WHEEL.

THESE WHEELS EXCEL ANY OTHER WHEEL in use, and are no infringement on the Leffel American Turbine, but excel it in every particular.

CAUTION.

To all whom it may concern:—One A. Myers is publishing and circulating a statement that my wheel is an infringement on the Leffel wheel, and he will "prosecute said infringement to the utmost extent of the Law." His statements are not worth a denial. His game is "Bluff," which, if he would only take the case to Court, would soon be played out. Don't believe him!

I would be glad to get a case into the United States Court and get a decision. That would forever stop the mouth of Myers and his misrepresentations. The legal opinions of more reputable lawyers than Dodge & Munn and A. Myers have pronounced my patents no infringement on the American Turbine. H. W. SHIPLEY.

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1864, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and haggard faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life destroying maladies—see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice or depraved sexual gratification is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, foted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian.* jy6d4ptf

HIRAM SMITH'S Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

THE SWAIN TURBINE COMPANY,

Proprietors and Manufacturers of

SWAIN'S PATENT TURBINE WATER WHEELS!

A. M. SWAIN, AGENT,
North Chelmsford, Mass.

For further information, address—

J. D. SWAIN, Agent,
Butteville, Oregon.

THESE WHEELS ARE MADE OF ALL SIZES; are adapted to all heads, high and low, and are warranted superior to anything ever yet invented for the purpose. It received a medal at the great Mechanics' Fair at Lowell, Mass., as eminently adapted to the purpose which it serves.

The following testimonials will be read with interest by all who have occasion to use water:

LOS GATOS, SANTA CLARA CO., CALIFORNIA,
December 10, 1867.

A. M. Swain—Dear Sir:—The following tests have been made by us at the dates given. Our overshot wheels were iron rim, iron braced, iron shafts, and as good wheels as we have ever seen. Buckets 7ft. long, rim 12 inches deep and 20ft. in diameter.

They would not furnish sufficient power to run two runs of machinery on one wheel when buckets were filled with water, hence the tests [illegible] on each over[illegible] wheel. All our tests were made by measuring the [illegible] of water in a flume and the distance a floating stick [illegible] travel in it per minute. All the flour made is [illegible] brand using over 3 bushels of wheat per bbl.

Feby. 1st, 1867.—Water 8½ inches deep, [illegible] wide, running 108ft. per minute, drives [illegible] shot wheel and all mill machinery to make 3 [illegible] per hour—734 cubic feet per minute.

Feby 7th—Water 17 inches deep, 4ft wide, running 180ft. per minute, drives 2 runs of stone, on both shots, all mill machinery to make 5 bbls flour per hour—1020 cubic feet used.

Nov 15th, 1867.—Water 9 inches deep, 4ft. wide, running 156ft. per minute, drives 1 run on Stevenson Jonval Turbines under 62ft. head, to make 3 bbls. flour per hour, and all mill machinery, using 468 cubic feet per minute.

Aug. 13th, 1867.—Water 5 inches deep, 4ft. wide, running 132ft. per minute, drives 1 run on Swain wheel under 56ft. head, and all mill machinery to make 4½ bbls. of flour per hour, using 352 cubic feet of water per minute.

Aug. 20th.—Water 6½ inches deep, 4ft. wide, running 132ft. per minute, drives 1 run on Swain wheel under 65ft. head and all mill machinery, except wheat cleaners, to make 3 bbls. flour per hour, making 284 cubic feet of water used per minute.

Nov. 2d.—Water 9½ inches deep, 4ft. wide, running 130ft per minute, drives 2 runs on Swain wheel under 66ft. head, and all mill machinery except wheat cleaners, making 4 bbls. flour per hour on one stone, and grinding one ton of barley per hour on the other run; grinding 13,721 lbs. of barley in a straight run of less than six hours—using 431 cubic feet of water per minute.

Sept. 27th.—Water 7 inches deep, 4ft. wide, running 152ft per minute, drives 1 run on Leffel wheel under 62ft. head, to make 3 bbls. flour per hour, and all mill machinery, except wheat cleaners, making 355 cubic feet of water used.

Your wheel (12 inch) will run 775 to 800 turns per minute, and will send a stone to 200 nicely and even faster if we dare. Truly yours,

ROGERS & HARRISON.

LOS GATOS FLOUR MILLS,
SANTA CLARA CO., CALIFORNIA,
April 20th, 1868.

A. M. Swain—Dear Sir: We have now been using your 12 inch wheel, with bucket 1½ inches deep, for over one year, in our flour mill, under 55 feet head. We have made very careful tests with overshot wheels, and find your wheel fully equals the best overshot even with partial gate, and excels it with full gate. It will run our mill machinery and run up to its full motion with the gate one-fifth open, and use water with good economy. We have tested it beside the Tyler, Stevenson and Leffel turbines, drawing water from the same pipe, and find it superior to them in simplicity of gate fixtures, steady power and great economy of water. After twenty years experience in water wheels, and the expenditure of thousands of dollars on different wheels, we would not take any other wheel as a gift, if we could get the Swain perfect built turbine by paying for it at the highest rates. We consider money paid for perfect work on a water wheel that will last for years, for a manufacturer, the best possible investment.

We have great trouble with the Leffel wheel gate in leaking and breaking, and have broke the gate several times in the six months we have run it, while your gate has never failed to close tight, and has never bothered us for a moment. Truly yours,

27m1 ROGERS & HARRISON.

*** *CONSULTATION, [illegible] ALL [illegible] ES, FREE.*

*** *CURES GUARANTEED, OR NO PAY REQUIRED.*

*** *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call special attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of victims; in the treatment and cure of which the Institute has earned so enviable a reputation.
